Notes about the timetable:

Comprehension- A short piece of text with questions will be given. They will test your vocabulary, retrieval, sequence, inference and prediction skills....just like we do in class during reading.

SPaG- one SPaG mat or SPaG task given each week

Mathletics- you must complete at least one activity set each day or spend around 30 minutes doing tasks I have assigned you

## Year One Home Learning Timetable- From Monday 20<sup>th</sup> April 2020

Math task or a mental maths activity will be set each day to be practised with someone at home. The activity or short task should be written in your home learning book.

English- Focus to be on quality of your writing– so we'll only ask for relatively short pieces of writing and give you skills/objectives we want to see in your writing.

The work for each day will be posted on Google Classroom each day for you to then complete in your home learning books given.

\*SEND: Some children may not be able to read or complete tasks set. The parents of these children would be contacted to give advice on the best approach, i.e. to sit and read through the materials with them and to record their verbal responses to questions.
